Science
2nd grade
Teacher Michael Cuica

Aprendizajes esperados:

- Conocer las características de los animales vertebrados

Name _____ 3rd grade: _____ Date: _____

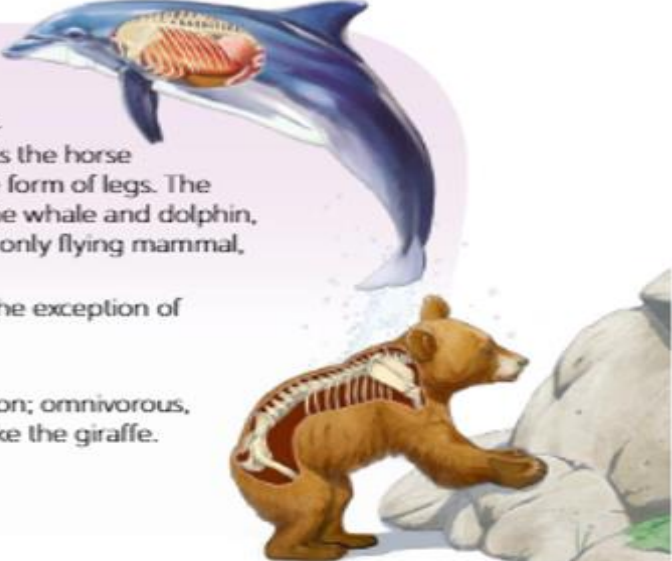

Guía práctica de trabajo unidad I

O.A: Conocer las características de los distintos tipos de animales vertebrados e invertebrados

Content/contenido:

Mammals

- **Type of reproduction:** viviparous.
- **Form of respiration:** through lungs.
- **Type of limbs:** land animals, such as the horse and monkey, have four limbs in the form of legs. The limbs of aquatic animals, such as the whale and dolphin, are in the form of fins. The bat, the only flying mammal, has two legs and two wings.
- **Type of movement:** walking, with the exception of aquatic mammals and the bat.
- **Type of body covering:** fur.
- **Type of diet:** carnivorous, like the lion; omnivorous, like the brown bear; herbivorous, like the giraffe.

Mamíferos

Tipo de reproducción vivípara

Forma de respiración: a través de pulmones

Tipo de movimiento: caminar. A excepción mamíferos acuáticos y el murciélago.

Cubierta de piel: pelaje

Tipo de dieta: carnívoro como el león, omnívoro como el oso y herbívora como la jirafa

Birds

- **Type of reproduction:** oviparous.
- **Form of respiration:** through lungs.
- **Type of limbs:** four limbs; the front ones are in the shape of wings and the back ones are legs, with the exception of the penguin.
- **Type of movement:** flying, like the pelican; walking, like the ostrich; swimming, like the duck.
- **Type of body covering:** feathers.
- **Type of diet:** carnivorous, like the eagle; omnivorous, like the swallow; herbivorous, like the hummingbird, which feeds off nectar from flowers.

Aves

Tipo de reproducción: ovípara

Forma de respirar: a través de pulmones

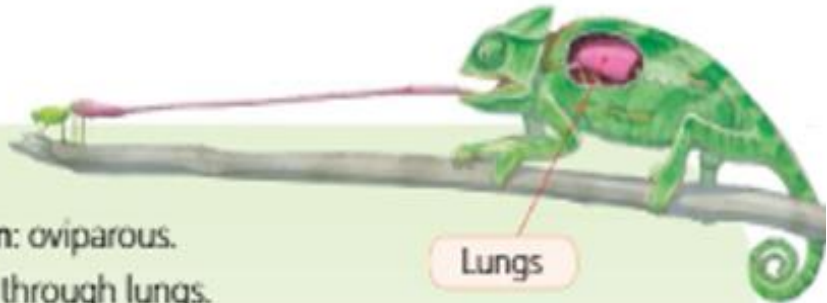

Tipo de movimiento: volar como el pelicano, caminar como el avestruz, nadar como el pato.

Cubierta de piel: plumas

Tipo de dieta: carnívoro como el águila, omnívoro como la golondrina, herbívora como golondrina

Reptiles

- **Type of reproduction:** oviparous.
- **Form of respiration:** through lungs.
- **Type of limbs:** four short limbs in the form of legs. Some, like the snake, do not have limbs and move by slithering. Most have a tail.
- **Type of movement:** walking and slithering.
- **Type of body covering:** scales.
- **Type of diet:** the majority, like the crocodile, are carnivorous; some, like the iguana, are herbivorous.

Reptil

Tipo de reproducción: ovípara

Forma de respirar: a través de pulmones

Tipo de movimiento caminar y deslizarse

Cubierta de piel: escamas

Tipo de dieta: la mayoría carnívoros como el cocodrilo y herbívoros como la iguana

1. Fill the card with the information of your favorite mammal bird and reptile

Mammal (Mamífero)

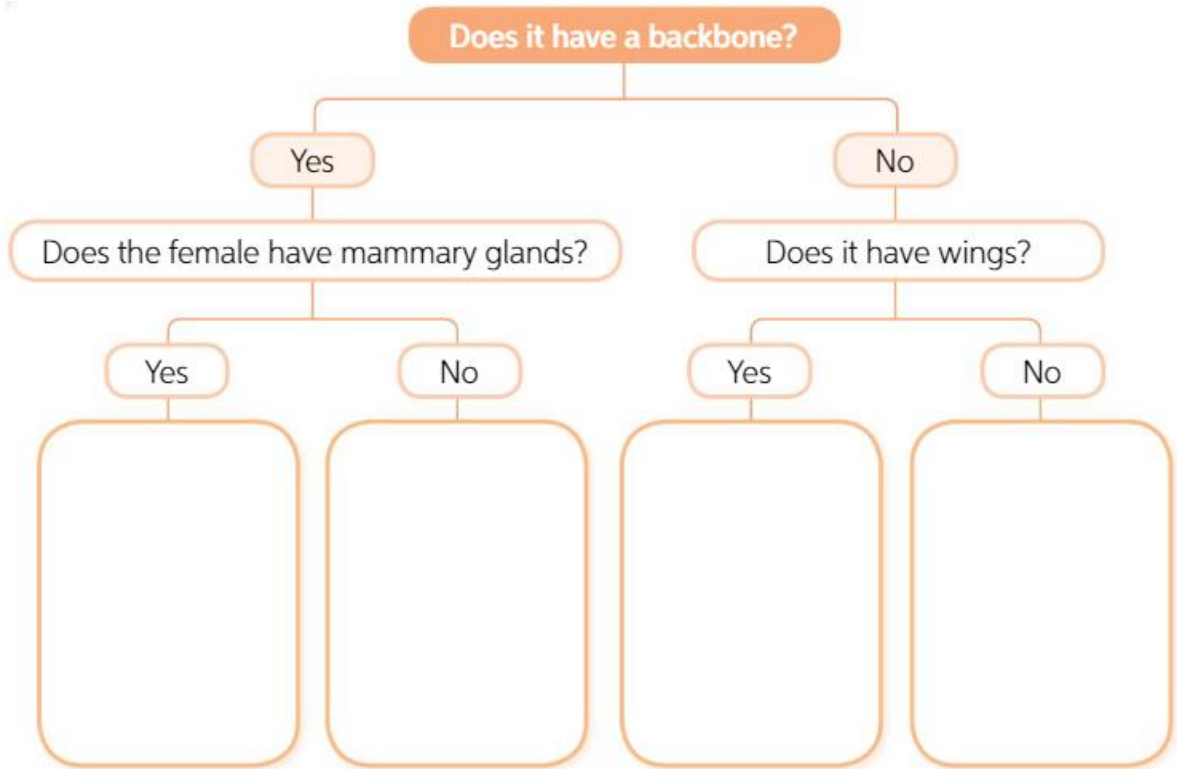

Picture of animal	Name: _____
	Body covering: _____
	Limbs: _____
	Diet: _____
	Reproduction: _____

Bird (Ave)

Picture of animal	Name: _____
	Body covering: _____
	Limbs: _____
	Diet: _____
	Reproduction: _____

Reptile (Reptíl)

Picture of animal	Name: _____
	Body covering: _____
	Limbs: _____
	Diet: _____
	Reproduction: _____

	Type of vertebrate	Type of reproduction	Type of body covering	Form of breathing
Mammals				
Reptiles				
Amphibians				
Fish				
Birds				

God bless you!!
